

## SULTAN YIELDS TO THE FRENCH

The Franco-Turkish Dispute Has Been Satisfactorily Settled.

## TURKEY WILL PAY

The Crescent in the Face of War Is Now Absolutely Brought to Time.

## WAR CLOUDS VANISH

Paris, August 24.—The Franco-Turkish dispute has been settled. The sultan has yielded upon the matter of the quays leaving private claims for further negotiation.

A semi-official note issued this morning says: "In consequence of the declaration made to the Porte by the French ambassador, acting on instructions from the ministry of foreign affairs, the imperial irade issued directing that no obstacle be opposed to the free exercise by the Quays Company of rights resulting from the concession. The settlement of other matters is considered imminent."

The dispute between France and Turkey was occasioned primarily by the refusal on the part of the Porte to permit the Quays Company, a French concern to enjoy such rights as it claimed under an agreement with Turkey. When it had almost completed the construction of the quays the sultan announced that the company could not enjoy the privileges granted and that he intended to buy up the quays. The company wanted ten million, but the sultan fixed eight million as the price. When the time for the payment arrived he balked, hence the trouble. The other claims against the Porte related to advances made by Frenchmen for the construction of his railways and for jewels bought by the late sultan for his harem.

**Expected at Washington**  
Washington, August 24.—The news that an agreement had been reached in the Franco-Turkish dispute over the quays in Constantinople was in accordance with the expectations of the state department. In diplomatic circles here it has been considered most improbable that France would stir up the eastern question and precipitate a general European war which has been so carefully guarded against since the Russo-Turkish conflict and an amicable settlement despite the blustering attitude assumed has been confidently anticipated.

**England Fears No Rupture**  
London, August 24.—Official word has been received here that the sultan has yielded to the demands of France and that the chances for a declaration of war have vanished. The importance of the French demonstration against the Porte is steadily declining. It is now described by an English journal as a purely personal affair rather than a rupture of diplomatic relations.

The sultan will not be humiliated by coercive measures, enforced by a powerful fleet, but will be reminded with French politeness, that a settlement of the controversy over the quays at Constantinople cannot be postponed for an indefinite period. The English press is convinced by the departure of the French Mediterranean squadron for the Atlantic maneuvers that the sultan will be allowed the time required for borrowing the money and paying the dock claims on the easy installment plan.

## AN EDITOR PLEADS GUILTY TO ARSON

W. H. Hammond, of Sun Prairie Confesses That He Set Fire to His Printing Office.

Madison, Wis., August 24.—(Special)—W. H. Hammond, editor of the Prairie Sun, pleaded guilty in the municipal court this morning to setting fire to his printing office about three weeks ago to obtain insurance money

of \$1,300. Sentence was postponed until August 27. Hammond is a young man, has been married two months and recently established the paper.

The Independent Consolidated Telephone company, whose purpose is the uniting of all independent telephone systems in Wisconsin, filed articles of incorporation with the secretary of state today. The capital stock is \$500,000 and the fee paid the state amounted to \$500. The incorporators are A. L. Hutchinson, president of Wisconsin Independent Telephone association; Edward T. Fairchild and Harry S. Hadfield.

**Pullman Car Company Taxes**  
Madison, Wis., August 24.—(Special)—The Pullman Palace Car company will pay a tax of \$9,145.88 to the state this year, an increase of \$139.73 over last year. The amount of the tax was fixed by the state board of assessment yesterday afternoon. The actual value in money of the entire capital stock of the company is placed at \$25,061,769, and its property in this state subject to taxation at \$337,143.68. It operates on 2,513.92 miles of road in Wisconsin, the value of which is placed at \$154 per mile.

## PEAT BOG TO TAKE PLACE OF COAL

New Industry for This Section of the Country is Being Developed by Whitewater Men.

A new industry for this section of the county is being developed by Whitewater capitalists. They have made a large number of experiments with "peat bog" to get it into a portable shape for use as fuel. Their experiments have exceeded their hopes and it is claimed that they can now prepare the peat so that a fire equal to that of hard coal can be secured at a much less cost. The peat is taken from the bogs and shoveled into a machine something after the fashion of a sausage grinder. Here it is crushed and ground and forced out into a tube where it is subjected to a high heat, and from here it is forced into a compressor and comes out in sections about four inches square and four feet long. The product looks exactly like hard coal and when burned gives out the same kind of a flame and equally as much heat.

A large quantity of the product has been shipped to the St. Paul railway company in Milwaukee and they are making experiments with it on their locomotives. So far they have been successful. Should this new fuel prove successful it will be a strong competitor with coal. Immense beds of this peat are scattered all over southern Wisconsin and northern Illinois and are easy of access. The cost of manufacturing the fuel is comparatively small and the machines inexpensive. The people who have made the experiments are satisfied that it will be a success.

**Roberts Parks Dead**  
Green Bay, Wis., August 24.—Robert Parks of this city, engineer on the Milwaukee road, died at the hospital at Champion, of injuries he received in a train wreck at Wabik, Mich., yesterday morning. Mr. Park was scalded by escaping steam and was taken to the Mining hospital where he suffered great pain.

**Onion Bandit Is Killed**  
Havana, Aug. 24.—Lino Lima, the notorious bandit for whose capture dead or alive the military government offered a reward of \$1,000, has been killed at Macuriges (Corral Falso) in the province of Matanzas. The police assisted the rural guard and four other bandits were captured at the same time. The body of Lima will be photographed for the purpose of identification.

**Killed by Spider's Bite**  
Menasha, Wis., Aug. 24.—Anita Miller, the 13-year-old daughter of Mr. and Mrs. Joseph Miller, died at the home of her parents. The child was bitten on the foot by a spider about a week ago and the foot immediately became swollen and physicians were called in. In spite of their best efforts the poison spread through the child's entire system and she died.

## HAD A BLOODY AND CRUEL RECORD; MEXICAN BANDIT FINALLY SLAIN

Valdespino, for Years the Terror of the State of Durango, Was Finally Overtaken by Soldiers and Killed.

El Paso, Texas, August 24.—Jose Remedios Valdespino, the leader of the furious gang of bandits that has terrorized the whole State of Durango, Mexico, has met a deserved fate and was killed in battle. He and a few of his gang were overtaken by a squad of rurales in the Canyon de Villano, near Nombre de Dios, a few days ago, and after a fight that lasted over an hour, the chief was slain and several of his men killed and wounded.

The record of Valdespino was one of the bloodiest and most cruel in the history of northern Mexico. A number of years ago he organized a small band of robbers and began operations in the mountains. Mining prospectors, ore and freight trains and every kind of travelers perished as he met them, and their money and valuables were appropriated by his crowd. Several times the authorities have captured and executed some of his men, but as often he replenished his ranks and kept up the bloody work. Many ranches have been raided and the women and children as well

as the men, were slain like dogs. Houses were burned, and the property of every kind destroyed before the gang proceeded on its way. Last year the gang was almost broken up, but Valdespino succeeded in escaping. For several months nothing was heard of him, but this summer he mustered another gang of followers and began his work again. Numerous rurales were sent on his trail but he succeeded in keeping out of their path.

About two weeks ago he raided a wagon train and killed several persons and the authorities found his trail. For ten days they followed in close pursuit, and one afternoon of last week overtook them in the Canyon de Villano. The fight was furious and six soldiers were killed. After a fight of over an hour the firing ceased and on closer approach dead men were found scattered along the gulch. In this number was the body of Valdespino, who was shot in several places. Several of the party are thought to have escaped, but nothing is feared from them, since their leader is dead.

## BASHFORD MAY GO TO NORTHWESTERN

Close of a Bitter Struggle for the Choice of a Successor to Dr. Henry Wade Rogers.

Chicago, August 24.—James Whitford Bashford, President of Ohio Wesleyan university, has been chosen president of the Northwestern university, and he will be offered the position today when he arrives in Chicago from California. He is willing to accept he will be formally elected at the annual September meeting of the board of trustees. Close friends of Dr. Bashford say that they do not expect him to refuse the offer.

Dr. Bashford is the fourth president of Ohio Wesleyan university. He was born at Fayette, Wis., on May 25, 1849. He entered the Wisconsin university in 1869, and at the end of his freshman year he joined the Methodist church, in which his father had been a pastor. He was graduated in 1873, and became tutor of Greek and English for a year. Then he entered the theological school of Boston university and was graduated in 1876. Two years later he graduated from the school of oratory of Boston university, and in 1880 he completed the course of the School of Bachelor of Philosophy. He has held various pastorates, serving in Boston, Auburndale, Mass., and Portland, Me.

## GUARDSMEN BREAK RANGE RECORDS

Wisconsin Militia Complete Rifle Competition for Regimental Team at Camp Douglas.

Camp Douglas Range, Wis., Aug. 24.—The entire regiment went out four miles at 7 o'clock this morning and maneuvered, representing a force to make an attack on a reservation, the reservation supposed to be strongly fortified, sending an advance guard which ascertains the position of the enemy and the direction from which they are coming and the course they intend to follow, that the camp may be prepared for the attack without surprise.

Today's rifle competition completed the contest for the regimental team and the scores are record breakers. The total two days' score of the regimental team was 4,111; nearly 30 points higher than any preceding team this year. The lowest score was 323. Sergeant Comer of Mauston, who holds the state individual record, led the team with 390 points.

At dress parade last evening General Boardman presented the new regimental colors to the regiment.

## LARGEST TANNERY IN THE WORLD

Charles Pfister Heads a Mammoth Enterprise Which Will Be Established in Milwaukee.

Milwaukee, August 24.—Milwaukee is to have the largest tanning establishment in the world. The company which is to inaugurate the new enterprise has been formed, the entire stock has been subscribed and the promoters are now busy securing the land for the mammoth establishment. It is understood that it is to be operated in opposition to the two big leather trusts.

Charles F. Pfister heads the concern. With Mr. Pfister, it is asserted, in the new company are Frank G. Bigelow, Frederick C. Vogel, Henry C. Payne and many other financiers of this city and in New York who are seeking an investment. The soundness of the investment may be judged by the fact that the entire capital stock has already been taken, even before public announcement has been made that the project is under way.

## POSSE WOULD HANG OUTLAWS.

Washington Vigilance Committee in Search of Hold-Up Men.

Colfax, Wash., Aug. 24.—Word comes from Riparia that a hold-up, which nearly resulted in murder, occurred in the railroad yards at that place about 1 o'clock this morning. Two men were held up and robbed after one of them had been shot less than fifty yards from the depot, while a freight train crew were working in the yards. The robbers escaped and the wounded man was placed on an engine and sent back to Starbuck for surgical treatment. Eight men were held up the previous night at Grange City, four miles below Riparia, and robbed of \$104. Two men did the work and it is believed that the same men did both jobs. A vigilance committee has been organized at Riparia and the announcement is made that the men will be promptly hanged if caught.

I. U. Fisher of Footville, was in the city today on business. Mr. Fisher has just recovered from a spell of sickness that has lasted since the seventh of June.

## IMPORTANT MOVE IN STEEL STRIKE

Something of Great Moment is in the Air at Pittsburg—Schaffer Extremely Reticent.

Pittsburg, Pa., August 24.—The local strike situation is practically unchanged. Schaffer is extremely reticent this morning. That some important move is about to be made as a result of yesterday's conference is confidently believed, but not an inkling of its nature is yet obtained. The strikers will make a determined effort this evening to get every man out of the lower Union Mills.

## STEAMER FOUNDERS EIGHT DROWNED

Koenigsberg, Prussia, August 24.—The steamer Liban foundered off Brusterert today. Eight were drowned.

Baltimore, Md., August 24.—The steamer Runo from Amsterdam reports that it sighted six steamships ashore within sight of one another near Cape Race off the Newfoundland coast.

## FALLS OVER 1700 FEET.

Aeronaut Drops Frightful Distance Into a Swamp and is Not Hurt.

New York, Aug. 24.—Benjamin Benjamin of 161 West 98th street is alive today, although yesterday he fell over 1,700 feet from a balloon. He made an ascension at the Plattdeutscher fest in Union Hill, N. J., and dropped into the Hackensack meadows, not far from the river of that name. When found he was submerged in mud and water up to his neck, and a black cloud of mosquitoes that he had disturbed from their home in the marsh had bitten his face so it was swollen until almost unrecognizable.

Persons in the vicinity of the aeronaut's final halt could not find him at first on account of the high grass. He was located at last by Harry Ross, who went up to the river in a boat to his rescue and reached the spot just in time.

## VALET JONES IS BETTER.

Will Be on Hand When Rice Murders Case Comes Up.

New York, Aug. 24.—Assistant District Attorney Garvan, who has had Charles Jones in charge since the latter's attempt at suicide while in jail awaiting trial for the alleged murder of his employer, William M. Rice, the aged millionaire from Texas, says Jones is still under police surveillance and regularly visited by a physician, but that the prisoner is improving in health.

He is taken out about once a week for a drive through Central park, and the assistant district attorney is of the opinion that when the case is called for trial Jones will be himself again.

Justice Jesse Earle is on a visit to his home in the town of Porter.

## TEN THOUSAND ATTEND FAIR

Unparalleled Success of the Beloit Attraction Is Announced.

## SOME GOOD RACES

Grafters and Fakirs Were Financially Rigidly Excluded from the Grounds.

## MEETING A SUCCESS

Beloit, Wis., August 24.—Ten thousand people attended the closing day of the Beloit Inter-state fair. Monroe and Broadhead with intermediate stations furnished quite a sprinkling of the crowd and the Monroe military band discoursed excellent music. The awards in the different departments were all made and at eleven o'clock last night was ended the most successful fair ever held in the Northwest. So say many old horsemen and fair promoters. President Lovejoy made a short speech in the afternoon thanking the people in behalf of the association and giving assurance that everything would be done to make next year's fair even more successful. He was presented with a huge bouquet of flowers by the lady managers of the fair.

**No Games of Chance.**  
No games of chance were in operation on the last day, the operators having received a quiet tip to seek other pastures, which they did, apparently, for the police run them out of town also.

Pluta, owned by St. Paul, Minn., parties, went out for the track record of 2:19 1-2 and succeeded in lowering it to 2:17 3-4. Oregon K., belonging to the Morgan stock farm near this city, went a half mile against time in 1:14 1-2. The horse has a record of 2:13. Earthquake Pilot, the guileless wonder, did a half mile pace in 1:12.

The crowd swarmed all over the track again and demonstrated the fact that for another year a more competent set of police must be engaged. One man like George or Billy Appleby could have done more good than all fifteen of the special policemen. They were unfamiliar with their duties and were simply powerless, and it is a great wonder there are not some dreadful accidents to report.

**Directors Deserve Praise.**  
Five or six cases of picked pockets were reported, all but one being on the fair grounds. Not a single accident or incident occurred during the week to mar the success of the show. The officials are much gratified at the unprecedented attendance. They have labored under great disadvantages and deserve all of the praise that they are receiving.

At the races yesterday the 2:13 pace was won by Aunt Laura, the property of Attorney John J. Fisher of Janesville. The mare was driven by Joseph Bassett of Clinton and did not make much of a showing in the first two heats on account of her gait being unsteady. In the third heat pacing hoppers were put on her to steady her and she took that heat and the next two heats in fine shape.

## \$100,000 MISSING; RETURNED.

The Treasurer of Mississippi Seems to Have Something to Explain.

Jackson, Miss., Aug. 24.—When Gov. Longino counted the state's cash Aug. 15 he found a shortage of \$100,000. No publication of the matter was made, but the governor quietly informed Treasurer Stower that he would return Aug. 20 and make another count, when, he trusted, the funds would be all there. At this investigation the cash checked up to a cent. It is now up to Mr. Stower to make an explanation, which so far he has not done. In the meantime the affair is creating a sensation in the state.

Mrs. Joseph B. Doe of Milwaukee visited friends in this city today.

## SHOOTS WIFE AND KILLS HIMSELF; TRAGEDY ENDS BRIEF MARRIED LIFE

Youth of 18 and Miss of 15 Have Marital Trouble at Palmyra, Wis., Which Brings Shooting.

Palmyra, Wis., August 24.—A few weeks ago Mort Cartright, a youth of 18; married Etta Starke, a pretty girl of 15. Last night the husband died at the sanitarium with two bullets in his body, while the young bride is at the home of Alfred Watson with a bullet in her back. She will recover. The bullet that struck her glanced from a corset steel else she would have been killed.

After their marriage the young pair lived at the home of Cartright's parents for a few weeks. They quarreled and separated, the bride going to Iowa. Recently there was a reconciliation. Cartright sent his wife money to pay her fare home, and she arrived here yesterday morning. She went to the home of Alfred Watson. Cartright called there at about three o'clock and met his wife. A few moments later the house-

## NORDSTROM DIES TIED TO A PLANK; FOUGHT FOR HIS LIFE NINE YEARS

Six Men Are Required to Handle the Condemned Murderer When Taken to the Scaffold.

Seattle, Washington, August 24.—Charles W. Nordstrom was hanged yesterday for the murder, November 27, 1891, of William Mason. From early morning the condemned man seemed to realize his position fully and while ministers and members of the Salvation Army prayed with him he wept continually.

At 9:30 Nordstrom was brought from the room in which he had been confined, just adjoining the execution room. It required the assistance of four men to keep him on his feet. When he was taken into the presence of the scaffold he broke down entirely, crying in a childish voice, and praying that his life be spared to him. He collapsed entirely and fell to the floor.

Efforts to raise him on his feet were fruitless and at last Sheriff Cuddehe ordered that a board be brought. To this Nordstrom was tied. It required six men to hold him

while he was being tied. While being fastened to the board Nordstrom continued to cry in a loud voice. Several times he seemed to speak but his words were unintelligible. The six men who had held him raised his body on the board, and with great effort succeeded in getting him upon the fatal trap. Here he was stood upright four men on the four sides of the trap and holding him. In less than two seconds after the condemned man was in place the trap was sprung, and Nordstrom had paid the penalty of his crime. The trap was sprung at 9:49 o'clock, and Nordstrom was pronounced dead at 10:02.

Nordstrom worked during the fall of 1891 for Thomas Mason, a rancher near Cedar Mountain in this county and had a dispute about the wages due him. The sum involved was \$3.85. He shot and killed Mason. He was caught shortly afterward and has been on trial ever since.

## Behind The Footlights.

Admirers of the drama, who find one of life's great pleasures in watching the development of a stage story in the hands of a company of clever people seldom think of the amount of work which necessarily lies behind a smooth production. Everything goes easily and the play swings along so beautifully that the spectators think nothing of the thought and study which has made such a result possible. It is in the glare of the lime light that stage life throws its glamor over the people who sit in front of the footlights and it is then that no profession seems quite so fascinating as the dramatic profession.

Few people know what the interior of a theater looks like in the day time when the stage is stripped of scenery and fewer still have seen the preliminary rehearsals of a theatrical production. Those who have been permitted to see such a rehearsal have a faint idea of what plays must have been in the times of Shakespeare when such things as scenery and stage accessories were unknown and all the parts were played by men. Think of "Romeo and Juliet" played on a bare platform with a husky man as Juliet and no balcony or softened lights for the balcony scene!

This olden time is brought vividly to mind by the modern rehearsal. The Ferris comedians have made this city their headquarters while getting ready for their season's work and for the past two weeks rehearsals have been held twice a day at the opera house. The company gives promise of being the strongest repertoire company ever sent out on the road at popular prices. An entire new repertoire of plays is being prepared for the coming season and the following plays are now ready for presentation: "The Commodore," "The Plunger," "In the Hand of the Captains," "For Love of Woman," "Morrison's latest and best success," "The Indian," "The Two Orphans," and "The Passion Slave." All are strong scenic productions.

A representative of the Gazette attended rehearsals on two different occasions during the past week and found the experience a novel and very interesting one. There is a peculiar loneliness about an empty theater with its rows upon rows of empty seats fading into obscurity in the dim light which leaves the corners of the large auditorium in deep and almost gloomy space. The change of the appearance of the house before the footlights is as marked as that on the stage at night. Then the inspiration of interested faces is found in the audience seats and on the stage appropriate scenery and light effects make the stage story seem like a bit of real life.

In the day time there is no illusion and one who knows nothing of the histrionic art would see but little promise of the finished production in the daytime rehearsal. The other afternoon two solitary spectators sat in the depths of the theater. They were the Gazette representative and Harry Bubb, manager of the company. As the manager laughingly said, "the stage looked like a junk shop." In front on either side and facing each other were two immense imitation cannons, and a very good imitation they are. They are used in "The Commodore," and are fired repeatedly in the fight with the Spanish battleships. Large balls are hurled from them across the stage, making the illusion a fearfully realistic one. The balls are caught in nets stretched behind the scenes but that the public is not supposed to know.

Common kitchen chairs represented elegant couches and easy chairs and in the background there was a clutter of trunks and stage properties. There was no scenery used and the way of exit and entrance existed only in the imagination of the players. In front sat Daniel McClure, the leading man, who stages all the productions with the exception of "The Plunger," which was staged by Harry McKee. Mr. McClure knows the business of every part in every play and is quite the busiest man in the company.

Most of the men smoked pipes even while rehearsing the most thrilling love scenes and the part of the women chewed gum with an energy that might easily give the impression that their salaries were earned by that achievement. In reply to a remark about the gum chewing, Manager Bubb said, "They do that because rehearsals necessitate so

much talking that their throats get dry and husky unless they chew."

The rehearsal itself was quite amusing. The main parts of the speeches were hurried over in a mumbling tone as a rule and only the last words or cues were given distinctly and with much spirit. Perhaps in the middle of a long speech the actor would stop and ask the stage manager "What do I do here?" or "Where am I supposed to be when I do that?" One of the young ladies when told to do a certain bit of business at a certain time said, "Yes, but how can I? I'm supposed to be in your arms all that time, ain't I?" In another place the heavy villain told his supposed victim not to stand so far front when he made the rush for him or he couldn't hit him good.

Every bit of the stage business has to be worked out carefully in order that the illusion of the play may be perfect and that there may be no conflicts. The actors must work together and every one must be in exactly the right place at the right time or there is trouble. The man who is to be stabbed must be exactly where his murderer expects to find him and the effect of comedy scenes depends just as largely on perfect working together. For this reason the stage manager outlines the business for the entire company and each member of the company is privileged to work out the detail of the business so far as it does not conflict with the business of the other actors and actresses.

The rehearsals are taken as easily as possible by the members of the company, because getting so many plays ready means a great amount of work and study and a great mental strain the easiest way it can be fixed. This was true with the exception of Harry McKee, who is a born comedian and bubbles over with energy. He is irrepressible. While the rehearsal was going on actors who were not in the same paced back and forth with manuscript books, studying their parts. As soon as the women were released from scenes, they returned to their work of unpacking trunks. But with all these distractions one could see that the company is an unusually capable one. There were flashes which revealed dramatic fire and talent and evidences that the faith which their manager has in them is not unfounded.

Manager Bubb is a very pleasant courteous gentleman and he chatted about his company as the rehearsal progressed. "Yes, Mr. Ferris has three companies on the road this season, the Ferris Comedians, the Grace Haywards company, and the Backman Comedy company, but he naturally takes the greatest pride in this company because it is the oldest. The company includes Daniel McClure, leading man, and stage manager; Jennie Swift, leading lady; Emily Baillo, soubrette; Emma Warren, character woman; Minnie Dale, ingenue; Alma Rutledge, general business; Harry McKee, comedian; George Hanna, character man; Carl Caldwell, second character man; Frank McGee, second comedian; George Osborn, heavy parts; William Wagonseller, general business; James McCauley, master of scenery; Frank Roland, musical director; Frank Harris, master of properties; and the Rutledge sisters, vaudeville artists. That is all except myself.

"Our plays are all heavy scenic productions and we now have in this city two carloads of scenery, enough so that we can put on our entire repertoire without using a bit of house scenery. Our performance is a continuous one every night and the house curtain does not drop from the beginning of the performance until its close. Our own olio curtain falls on the acts of the play and while the sets are being changed the audience will be entertained with specialty acts."

When speaking of the salaries paid actors, Mr. Bubb said there was no business in the country where really good people received such high salaries. "Why, our salary list as it stands now is \$88 a week," he said, "but then living is expensive and the wardrobe cost from \$200 to \$500 a person."

Tonight there will be a full scenic and dress rehearsal of "The Commodore," there being so much special scenery for the play that such a rehearsal is necessary. The company opens its season in this city on next Monday, and the opening bill at the Myers Grand will be "The Plunger."

## NEWS AND GOSSIP OF BADGER STATE

Appleton—The curtailment of the allowance of water for power from 40 per cent. to 20 per cent., has shut down every pulp grinder on the river and started up the steam plants in all the mills. The paper machines and all other portions of the mills will continue to run by steam until the water raises, and the only machinery that will be stopped by the curtailment will be the ground-wood pulp department of various mills.

Ashland—Ironwood people are greatly excited over a gruesome discovery made there. In a corner of the fair grounds there the skeletons of a woman and child were found. Some boys who were playing there made the find and notified the police who are investigating the affair thoroughly. It is believed a murder has been committed, but as yet no clues have been secured.

New Richmond—The law and order league in Hammond, which has been operating successfully against the blind piggers who have been violating the license regulations of that town, have secured the conviction of L. W. Keyes, a storekeeper, who kept his place open on Sundays. Keyes paid his fine and costs on two accounts to which he pleaded guilty.

Sheboygan—The Albert Landreth Pea Canning company finished the picking of its bean crop today. These were planted this season by way of an experiment and the venture has been very successful. The factory will be in operation for a month.

What most people want is something mild and gentle, when in need of a physic. Chamberlain's Stomach and Liver Tablets fill the bill to a dot. They are easy to take and pleasant in effect. For sale by People's drug store and King's pharmacy.

Prosperity Personified. Perhaps it was the tobacco juice upon his whiskers, perhaps it was his wearing a silk hat with a Tuxedo coat; anyway, a subtle something told us he was a farmer. "Young man," said he, accosting the jeweler, in the purest agrarian English, "I want eight gross of diamond pins for favors at my wife's husking bee."

It is reported that the extreme prosperity of the agricultural classes has, in many sections, led to the use of such large tracts of land for golf links as to seriously curtail the visible supply of wheat.

## SALVATION ARMY MONSTER JUBILEE

Arrangements Under Way for Two Meetings in This City on September 2 and 3.

The Salvation Army is arranging for two monster jubilee meetings to be held in this city on the second and third of September. Brigadier General Brangle, of New York City, known all over the country as the "Holiness Man" will be in the city that time and will have charge of the meetings which will be held in one of the local churches.

General Brangle is one of the most powerful forces in the Salvation army and the title of "Holiness Man" which he has won by his work in the army was given him in all reverence and is considered very appropriate. He is a very bright man and his visits to a city are always the signal for mammoth audiences.

Capt. J. McIntyre and wife, who have charge of the local army are looking forward eagerly to General Brangle's coming and expect that the meetings which have been planned will be followed by an awakened and more general interest in the work of the army.

In connection with these meetings an officers' council will also be held in this city. The council will convene on the same dates, September 2 and 3, and will be conducted by Staff Captain Waite of Milwaukee. This council includes all of the officers in this district which is known as the Lake division. These councils are held every six months, generally in a city where the army work is not very strong, and are held for the purpose of benefitting the officers in carrying on their work.

Captain Waite and wife have recently taken charge of the work in this city. They are earnest, intelligent people and are very pleasant to meet personally. They hope much good will result from General Brangle's visit as they feel that the work needs speedy encouragement. Capt. McIntyre says that the army work in Janesville is somewhat slow but is showing somewhat of an improvement at present. Some years ago the army carried on a large barracks here and a number of members were enrolled. Several of these are giving their time and attention to the meetings again.

The jubilee meetings will be held in the First M. E. church.

## Catarrh

The cause exists in the blood, in what causes inflammation of the mucous membrane.

It is therefore impossible to cure the disease by local applications.

It is positively dangerous to neglect it, because it always affects the stomach and deranges the general health, and is likely to develop into consumption.

Many have been radically and permanently cured by Hood's Sarsaparilla. It cleanses the blood and has a peculiar alterative and tonic effect. R. Long, California Junction, Iowa, writes: "I had catarrh three years, lost my appetite and could not sleep. My head pained me and I felt bad all over. I took Hood's Sarsaparilla and now have a good appetite, sleep well, and have no symptoms of catarrh."

## PEACE IS NOT IN SIGHT

So States President Shaffer Concerning Strike Situation.

## THE MINERS NOT TO STRIKE.

John Mitchell, Leader of the Miners Goes to Chicago to Attend the Meeting of the National Executive Board—Situation Summed Up.

Pittsburg, Aug. 24.—"No propositions have been made for a settlement of the strike and none will be made as a result of the meeting of labor leaders here to-day," said President Shaffer of the Amalgamated Association last night. "There was only one prominent labor leader here. That was John Mitchell, president of the United Mine Workers' Union. He was passing through Pittsburg and called at my office. There happened to be present three other men, all interested in the strike. As in the Gompers case, I called in my national officers and we talked over the situation. I did not call the conference and no action on the strike was taken. None will be so far as I know now. We have conferences of that kind almost every day. There will be no sympathetic strike of the miners. None has been asked and none will be requested. The talk about the miners refusing to load coal for non-union mills is bosh. That phase of the situation was not discussed. Mr. Mitchell is interested in the strike as any trades unionist should be. His organization is with us morally and financially. The other men whom we talked with are interested in the settlement of the strike, as every good citizen should be. They did not bring any proposition from the steel trust, and we did not authorize them to bear any proposition from us. The strike will go on. We are satisfied with present conditions."

The three men mentioned by President Shaffer are J. W. Jenks, professor of political economy at Cornell University and statistician of the United States industrial commission; Ralph M. Easley of Chicago, secretary of the National Civic Federation, and Harry White of New York, general secretary of the United States Garment Workers' Union of America. Mr. Jenks has been here several days, and left in the evening for Chicago. Mr. Mitchell also went to Chicago to attend a meeting of the executive board of the Miners' Union to-day, he said. Messrs. Easley and White remained here. Mr. Easley has been working on a settlement plan for some weeks, but has not made any progress. The conference with President Shaffer lasted all afternoon. At its conclusion all questioners were referred to President Shaffer, who made the statement quoted.

A summary of the situation at the different mills shows the following conditions:

Pittsburg—Star Mill: Two mills running; strikers say five more men left the plant and joined their ranks, but management positively denies the statement.

Painter mill—Four mills running; fires lighted in bar mill furnaces, but failed to start as expected.

Pennsylvania tube works—Mill idle; machinists said they would quit Saturday.

All Carnegie mills running full. McKeesport—Demmler plant idle and no attempt will be made to start it before next week; everything else closed down.

Irondale—Mill running with same force as yesterday, making two turns, and assurance from the manager that more men will be added today.

Wellsville—Situation unchanged; twelve mills running.

Lisbon—Fires started in tin plate plant; Manager George Evans says everything in readiness for start soon with plenty of men. Strikers voted to remain out and mill is strongly picketed.

Wheeling—Everything tied up and

no apparent indication of an attempt to start any of the mills.

Bellaire—National Steel company's idle plant will, it is said, be started early next week by a full force of men.

## SILK STRIKERS THROW STONES.

Serious Rioting at the Sterling Mill at Pittston, Pa.

Pittston, Pa., Aug. 24.—A second riot has occurred at the Sterling silk mill, following a clash which occurred and the howling mob surrounding the mill threatens to enter it by force and drag the non-union girls from the looms. When the strikers arrived at the mill, long before daylight, they were provided with stones and other weapons. The first object of attack was a small Italian settlement near the mill. Later, when the nonunion workers arrived, a volley of stones met them. The mill is in operation, but serious trouble threatens before night-fall.

## Shirt-Waist Makers Strike.

New York, Aug. 24.—Two thousand five hundred girl shirt-waist makers are now on strike at seven workshops in this city and it is said that five more strikes will be ordered, involving 600 additional workwomen.

## Writ Binds Strikers.

Chicago, Aug. 24.—Now the power of injunction is thrust into the machinists' strike. The petition for an injunction was presented yesterday by W. J. Calhoun, attorney for the Allis-Chalmers company. Judge Kohlsaat, sitting in chambers, considered the application and directed the issuance of an order restraining strikers from picketing the shops and interfering with the machinery of the complainant company.

## A Mysterious Note Explained.

South Chicago, Aug. 24.—No importance is attached by Vice President Davis to a letter that was sent by Superintendent McCullough of the steel company to George W. Shepherd in which the latter was addressed as "Dear George." Davis declares that similar letters have been sent to all the members of the Amalgamated association who are prominent in its councils. He himself received one of the letters, in which he was referred to as "My Dear Billy." C. H. McCullough, general superintendent of the Illinois Steel works, last night gave out the following statement:

"I wrote the note to Mr. Shepherd, a copy of which was published today. I desired to call a meeting of the men for that same evening, the 22d inst. The note was written and sent in the customary manner. The meeting was held in my office as planned and Mr. Robinson, the general manager, and myself, with the fifteen men whom I had invited, were present. There was no attempt at concealment in connection with either the call or place of meeting."

## WELCOMES WOMEN TO BAR.

Important Proceedings of American Bar Association at Denver.

Denver, Colo., Aug. 24.—The dinner of the American Bar association at night marked the close of the annual meeting. W. U. Hensel of Pennsylvania was toastmaster. The most notable response was by Judge William K. Townsend of the United States district court at New Haven, Conn., who originally decided the Porto Rican tariff cases, the decision of which by the supreme court has caused so much comment. In closing Judge Townsend said:

"Gentlemen, I rejoice in this great decision of the supreme court that the framers of the constitution must have intended that this country should not come forth born as a cripple into the family of nations, but that she should possess all the essential attributes of sovereignty which would enable her to govern her possessions according to the best interests of the American people and subject only to those prohibitive provisions of the constitution which guarantee protection against interference with natural rights." The following officers selected by the committee on nominations were elected: President, U. M. Rose, Little Rock; secretary, John Hinkley, Baltimore; treasurer, Francis Rawle, Philadelphia. Executive committee U. M. Rose, president ex-officio; Edmund Wetmore, retiring president ex-officio; John Hinkley, secretary ex-officio; Francis Rawle, treasurer ex-officio; William A. Ketcham, Indianapolis; Henry St. George Tucker, Lexington, Va.; Charles F. Libby, Portland, Me.; Rodney A. Mercer, Towanda, Pa.; and James Hagerman, St. Louis, Mo. Among the vice presidents chosen are the following: Illinois Adolph Moses; Indiana, Samuel O. Pickens; Iowa, J. O. Crosby; Michigan, George P. Wandy; Minnesota, F. V. Brown; Missouri, Charles Claffin Allen; Nebraska, Elzevir Wakchay; North Dakota, James H. Bosard; Ohio, Henry C. Ranney; South Dakota, Bartlett Tripp; W. P. Hubbard; Wisconsin, W. P. Bartlett. The action of the general council favoring a constitutional amendment admitting women to membership was endorsed. The executive committee decided that the next meeting of the association shall be held at Saratoga, Aug. 27, 28 and 29, 1902.

## VICUNA'S BODY IN VAULT.

Will Remain in Washington Cemetery Temporarily.

Washington, D. C., Aug. 24.—The body of Senator Morla Vicuna, late minister of Chile to the United States, has arrived in Washington from Buffalo. The funeral cortege was met at the depot by a number of officials and members of the diplomatic corps, including Col. W. H. Michael, in behalf of the state department; W. C. Fox acting chief of the bureau of American republics; the Peruvian minister, Mr. Calderon; the Costa Rican minister, Mr. Calve; representatives from the Mexican, Japanese, Venezuelan, Dominican and other legations.

The funeral party proceeded to Rock Creek cemetery, where the coffin was deposited in the receiving vault pending a determination on the final disposition of the body. Over the coffin was draped the Chilean and American flags, while a profusion of beautiful floral offerings were arranged about it. There were no services at the cemetery. It will be decided later whether the body will go to Chile on board the Chilean warship soon expected in American waters or will go from San Francisco on a merchant steamer.

If you have a baby in your house you will wish to know the best way to check any unusual looseness of the bowels, or diarrhoea, so common to small children. O. P. M. Holliday, of Deming, Ind., who has an eleven months' old child, says: "Through the months of June and July our baby was teething and took a running off of the bowels, and sickness of the stomach. His bowels would move from five to eight times a day. I had a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the house and gave him four drops in a teaspoonful of water and he got better at once." These Facts Must Convince Every Janesville Reader.

That which follows is the experience of a resident of Janesville. Incredulity cannot exist about the statement because it can easily be investigated.

Mr. H. P. Hanson, of 103 Pleasant St., engineer, employed at the Janesville Machine Co., says: "Doan's Kidney Pills did me all the good that could be expected and I recommend them to any one who may be troubled with a lame back or any kidney disorder. After procuring them at the People's drug store and taking them I felt better sleep better, my back did not ache like it did, and I did not rise in the morning with a lame and sore back. I suffered from these symptoms for four or five years and I was more than pleased at the results obtained from the use of Doan's Kidney Pills."

# Kodol Dyspepsia Cure

Digests what you Eat

Many digestive compounds and tablets are recommended to cure dyspepsia by digesting food with the pepsin they contain. Most of these possess merit, but they all fail in many cases, because pepsin digests only albuminous foods, such as eggs and meat. But we must eat more than eggs and meat; and some of the worst cases of dyspepsia are caused by indigestion of fats and starches and other foods which pepsin cannot digest.

There is one preparation that contains all the digestants. It is KODOL DYSPEPSIA CURE, which digests what you eat, and has been used with remarkable success,—not a single failure to cure being reported from the many thousands who have used it.

J. E. Peabody, Pittsfield, N. Y., says: "The first dose of Kodol Dyspepsia Cure relieved my son of stomach and heart trouble, and four bottles of it cured him. I heartily recommend it."

## THE BOY WHO WINS.

"Hello Tom, where you goin' with that grip?"

"Going to the depot and there's a quarter in the job. I s'pose you wouldn't be carrying grips for a quarter, this hot day."

"Not much, I don't have to, and you don't either. You're a good one to spend your vacation lugging baggage for other people."

"That's all right, John. I like to have a little money of my own, and I've earned several dollars this summer. There's nothing like being independent."

This little scrap of conversation occurred between two boys at a summer resort the other day. Neither of them was obliged to work, and one of them lacked the disposition, but the other had room in his head for a little thought, and so he put himself in the way of opportunity, and soon discovered that an active boy was in demand.

He was on deck when extra work was needed at the hotel, discovered that he could make himself useful about the barn, and so every day he found time to earn a little money, all his own.

That kind of a boy is a business man in embryo, and before he is twenty-five years he will be doing business on his own account.

His motto, "There's nothing like being independent," has been his watchword, and with honesty as a character foundation, and ambition as a motive power, opportunities have come to him, and capital was not slow to recognize his ability.

His college has been the great university of life, where a very large majority of the successful business men graduate early, and while he may not be able to read Latin, or write a profound essay, he has mastered the principles of business, and escaped the ordeal of a swelled head, that handicaps so many young men when they stand on the threshold of active life.

There are some traits of character that should be drilled into a boy before he reaches the age of manhood, if he does not possess them by natural endowment.

One of them is the appreciation of the value of money. It is not necessary to cultivate a miserly spirit, but he should be given to thoroughly understand that honest money costs honest and intelligent effort, and that no man has a right to squander it needlessly.

The average school boy of well-to-do parents is clothed and fed and furnished with spending money until after the age of maturity is fully acquired.

He knows nothing of values and when he is ready for active life his knowledge is so superficial that he needs a guardian for ten years to keep him out of the poor house or the reformatory.

If thrown on his own resources, every pay day finds him in debt. He goes into life bankrupt, and struggles through years of insolvency, wondering why opportunities never come to him, forgetting that he wouldn't recognize an opportunity if it was labeled.

This is called a brainy age, and it is true that the world is long on young men with brains. Modern civilization is doing much for the development of young men; but it is neglecting some of the fundamental principles that stand for success in every calling.

It may be possible in professional life for a young man with well developed brain, to win laurels, and be a spendthrift, living up to his income every year, but it is not possible in commercial or industrial life.

These channels, and they are the great waterways where the masses find employment, demand more than brains.

The young man who would win success in any of these diversified channels, must possess the ability not only to work intelligently, but to accumulate from the product of his toil. He must get down into his mind the thought that came to the boy: "There's nothing like being independent."

Capital is always looking for brains with this kind of an attachment. It recognizes the fact that the young man who can make money and accumulate it for himself, can

handle money for other people successfully.

There are a world of young men, drifting on toward middle life, who never knew what it was to have a hundred dollars they could call their own. They work faithfully in shop and store and factory, honest and conscientious, carrying around a head full of brains that might overshadow the man that furnishes the employment, but handicapped in the race, because they have no money.

The boy is off somewhere in his education. He was either too good or too lazy to earn a dollar before he cultivated a moustache. In either case some guiding hand that attempted to equip him for life, failed in one of the most important essentials.

If the boy wants to earn a dollar, whether in school or out, let him do it. If he is destitute of this kind of ambition, supply it, and if the task is a hard one, don't give it up. If you would see him win.

If he is well equipped for life he will carry into it more than honesty or piety. He will not only respect the dignity of labor, but he will be fired with ambition to win for himself some of the prizes.

Booker T. Washington says: "The object lesson of a negro succeeding in a community is worth more than a hundred abstract speeches." How can he succeed in anything except being suspected of crimes, when surrounded by such enlightened (?) whites?

Pennsylvania bosses seem amused at the state's discomfiture over the franchise grab, but Croker was also amused when he was arrested. This amusement is born of a knowledge that the opposition lack the energy and courage to demand the truth at the hands of the law.

Booker Washington will find no negroes to educate, if the Texas and Louisiana people keep on at the rate they have begun. Why not hang the entire race? Then the guilty will surely be brought to justice.

Political science used to be considered a dismal study, but the recent strikes have made it anything but dismal for those who are figuring on where we will be when strikes are no more.

The Milwaukee Free Press attempts to be facetious, and treats the new republican league as a burlesque. Its took in trade seems to be "black mail and libel, and the role of a clown is in keeping with its inspiration.

Wheat has turned a threatened loss into a positive gain, in exports, showing the wonderful resourcefulness of this country as an exporting nation.

If Andrews thinks preachers who preach for salary only ought to be hanged, what does he think of the teacher who teaches for salary only?

## NEWSPAPER, BUT NO NEWS.

Editorial Lockout Compels Columbus Press-Post to Print Miscellany.

Columbus, O., Aug. 24.—Owing to an editorial lockout the Press-Post appeared yesterday without a line of local or telegraphic news. Miscellany was all that appeared in the way of reading matter, and last evening the Typographical union ordered the machine men to refuse to even set that character of matter today.

Yesterday morning a half dozen reporters and a city editor, not members of the News Writers' union, appeared at the editorial rooms and proceeded to furnish local and telegraphic copy. The compositors became aware of the situation and called President Mann of Typographical union No. 5 in for consultation.

"Set no copy unless it is legitimate," was his advice. "Refuse to set any local or telegraphic copy unless it comes to you from the hands of a union city editor or a union telegraphic editor. This left nothing for the printers to do but to set miscellany."

## Wealthy Man Is Found Dead.

New York, Aug. 24.—James W. Lyall, 63 years of age, a wealthy manufacturer of cotton goods, was found dead in a bathtub of his home in this city with the gas turned on. The theory of the family is that Mr. Lyall had become overcome by faintness and fell, striking the gas bracket in falling, and so turned on the gas. They said that he had no reason to commit suicide, so far as they knew.

## Negro Hanged in Baltimore.

Baltimore, Md., Aug. 24.—John H. Butler, a negro, was hanged in the jail yard here at 10 o'clock. Butler killed his wife, Lavinia, last October by beating her with a cobblestone. He has always denied his guilt, and several attempts have been made to have his sentence commuted on the grounds that he was insane. He was prominent as a Republican politician.

## Tax Collectors Interested.

New York, Aug. 24.—Tax collectors for the city and state of New York and the state of New Jersey are closely watching the work of valuing the estate of the late Jacob S. Rogers, who left the greater part of his \$5,000,000 or \$6,000,000 to the Metropolitan Museum of Art. It is estimated that the tax on the estate will amount to \$1,300,000.

## Man and Wife Take Poison.

Boulder, Colo., Aug. 24.—The dead body of a woman supposed to be Mrs. Bess Strigel has been found in a room in the Lane block. Beside her on the same bed lay Bert Strigel, in a dying condition. An empty phial, one ounce, labeled laudanum, was lying near by.

## Woman Wounded; Husband Dead.

Butte, Mont., Aug. 24.—As a result of a family quarrel John C. Kimball is dead, his wife, Gussie, is in the hospital with a bullet wound in her chest, and Frank Yechout, the father of the woman, is in jail charged with doing part of the shooting. The persons were walking together in the morning, when Kimball drew a revolver and began shooting at the woman. Yechout then shot Kimball. The Kimballs had not been living happily together.

## Slays Wife and Her Parents.

Dawkins, S. C., Aug. 24.—Sam Farrow shot and killed his wife, his father-in-law, and mother-in-law near this city. A posse started after Farrow, who fired at his pursuers from ambush, but without effect. He was arrested later and lodged in jail.

## Cheap Rates to New York City and Return.

Excursion tickets will be sold daily until Oct. 20 to New York city and

return with favorable time limits, allowing stopovers at Buffalo and other prominent points. For rates and other information enquire at C. & N. W. ticket office.

## Special Round Trip Rate to New York City by C. M. &amp; St. Paul Railway.

Daily from July 20th to Oct. 20th. For rates, limits and routes, with stop over privileges call at C. M. & St. Paul depot.

## Girl Climbs Tall Steeple.

Ashland, Mass., Aug. 24.—Miss Jessie Foote of this city climbed the steeple of the Methodist church today, a distance of 135 feet, and after calmly viewing her surroundings descended to the ground to receive the congratulations of a few friends who witnessed the feat. For several days steeple painters had been at work on the church steeple and a string of ladders was lashed to one side of the structure clear to the top. Up this frail and treacherous stairway Miss Foote ascended, patted the top notch of the steeple three times with her right hand while standing there and then came down. She was cool and calm when she reached the ground.

## BOLD ROBBERY OF A FOOTVILLE MAN

James McCulloch, a Section Hand,  
Was the Victim of a Sneak  
Thief Last Night.

James McCulloch, a section man at Footville, Wis., was the victim of a bold robbery at his home last night, by which he lost about \$125. When he went to bed he left his trousers lying on a chair near by. In the pocket were railroad checks that he had cashed for men on the section, a \$20 bill and nine dollars in silver. When he awoke this morning he discovered that his trousers were not in their accustomed place and he began looking for them. He found them in another room with the pockets turned wrong side out and his money gone. He at once looked around for clues of the thieves and found that they had secured an entrance to the house through a rear window but found nothing to tell who did it. He at once notified the police at Evansville and Sheriff Maltress of this city. A search was made to see if anything could be discovered in this city but no suspicious characters were around. The banks of the city were notified not to cash the checks if presented and he may be able to save this much of his property as the amounts of the checks and those to whom they are payable are known and payment will be stopped on them at the banks on which they were drawn.

## MEETING FOR MEN AT THE Y. M. C. A.

The meeting for men at the Y. M. C. A. tomorrow afternoon is an opportunity for all men to spend a pleasant and profitable hour. Everyone is urged to be present. Subject tomorrow at 3 p. m., "What is the Outlook for a Young Man." Some special music will be provided, and every man is invited to bring a friend and enjoy the hour from 3 to 4 p. m.

### DIVIDE WOODRUFF FARM

Estate Decides to Offer Costly Home  
and Buildings With 17 Acres.

George Woodruff, administrator of the Henry S. Woodruff estate, has placed on the market the beautiful Woodruff home, with barns and other buildings, together with seventeen acres of the choicest of the 168 acres of land that comprises the farm. The property is in a most ideal location, having frontage on Magnolia and Oak Hill avenues within easy walking distance of the electric car lines and the grounds of the Mississippi Golf club. An abundance of elm shade trees are on the property. A driveway a quarter of a mile in length and two rods wide, leads to the spacious home from Oak Hill avenue. Eighty 15-year old elm trees shade this driveway. The home is modern in every respect, containing fifteen rooms, with gas, water, furnace and bath. An elevation of twenty-five feet from the street brings the house in a most slightly location from which the cities of Clinton and Beloit, fourteen miles away, can easily be seen. The house alone originally cost about \$30,000, while several thousand dollars were invested in the barns and other improvements that are now offered, together with the seventeen acres. The farm is comprised of 168 acres but Mr. Woodruff stated today that the estate had decided to sell the choicest seventeen acres which included the home and a portion of the barns and other buildings. For an ideal home the Woodruff location and buildings are not surpassed. This part of the state. A well 157 feet deep supplies cool, refreshing water the year around. Located within the city limits the property enjoys all the benefits that are accorded the resident whose home is adjacent to the business section. The Woodruff farm has involved an outlay of \$100,000.

### GIVE A DANCING PARTY.

Several From Here to Visit Hoard's  
Koshkonong Place Tonight.

This evening several from here will attend a dancing party to be held at Hoard's hotel, Lake Koshkonong. Prof. Smith's full orchestra from this city will furnish the music. Hoard's hotel this year has proved a most popular place for scores of Janesville people. Prof. C. C. Williams and his genial wife are in charge, which is assurance that all will be made to feel at home.

**Wendell Wagner Wedding**  
At eight thirty o'clock this morning Rev. Father W. A. Goebel of St. Mary's church performed the ceremony which united as man and wife Frank Wendell and Josephine Wagner. The young couple were attended by Joseph Wagner and Sarah McQuail. They formerly resided at Portland, Ind., but of late have lived on a farm near Emerald Grove. Both young people have many friends in the vicinity of Emerald Grove, where they will reside in the future, who will wish them much joy.

**Deed of Trust Filed**  
A deed of trust for \$51,000, given by the Evansville Water, Light and Power company to the Royal Trust company of Chicago and H. E. Ambler was filed in the office of the Register of Deeds Rowd on August 22. The incorporators of the Water, Light and Power company are Fred E. Conway, W. H. H. Johnson and John P. Porter, all of Evansville. The deed covers all of the property of the company including water power, electric lines, real estate and fixtures.

Lee Alder, of Edgerton, the young man operated upon at the Palmer hospital on Monday for appendicitis is doing nicely and is now on the high road to recovery.

Mr. and Mrs. Albert Schnell hand-somely entertained the members of the Novelty club at their Milton avenue home last evening. The lawn was lighted with Chinese lanterns suspended from the branches of the trees and presented a pretty sight. Mr. Schnell is the owner of a large Graphophone which furnished the entertainment for the party during the evening. Light refreshments were served and added much to the pleasures of the evening.

## EXPENSIVE TRIP TO BELOIT FAIR

Party of Janesville Young Men in a  
Wagonette Have an Exciting  
Experience Coming Home.

A party of young men from Janesville visited the fair at Beloit on Thursday and had an exciting experience on their return trip. The party made the trip overland in a wagonette and after taking in the sights around town and at the fair concluded to stay and take in the evening performance.

They left Beloit about eleven o'clock and all went well until they were about half way home. They were driving along a piece of turn-pike road with a ditch about six feet deep on either side, when one of the wheels came off and the rig turned upside down into the ditch. For a time things looked serious for the crowd, they were thrown into a bunch in the top of the wagonette which was broken down by the weight of the box. The horses were jumping and plunging but soon got loose from the rig which probably saved the lives of some of the party. Several of them received severe bruises and scratches before they could extricate themselves from the wreck and are thankful that the accident was not worse.

The next thing that presented itself was how they were going to get home. A farm house was discovered a short distance away and a committee sent up to interview the owner. After considerable parley and a liberal offer of money he consented to bring the bunch to town and they arrived here at an early hour in the morning. The driverman that owned the rig sent out after it the next day and the boys are now trying to figure out how much their trip is going to cost them.

## BOAT-ROCKER A MURDERER.

Maryland Jury Takes Advanced Ground on a Common Practice.

Hagerstown, Md., Aug. 24.—Henceforth boat-rocking is going to be mighty unpopular in Maryland. The jury that investigated the drowning of Miss Mary Finifrock of York, Pa., by the upsetting of a boat on Lake Royer last Sunday evening in its verdict declares that the capsizing of the boat was due to the criminal carelessness of Frank Rinehart, and the jury says: "Frank Rinehart willfully and feloniously killed and murdered Mary Finifrock." Rinehart rocked the boat, intending to frighten the two girls who were with him, and aided in rescuing one of them.

## Parole for a Life Convict.

Michigan City, Ind., Aug. 24.—Gov. Durbin has paroled John Fleming, a convict in Warden Shideler's charge, for ten days. Fleming is under sentence of life and has served thirteen years. He was paroled that he may visit his father, who is dying at Kokomo.

At the expiration of his parole he is expected to return to prison, and the officials have full confidence that he will. This is said to be the first case on record where a life convict has been permitted to leave the prison.

## Killed a Rancher for \$3.85.

Seattle, Wash., Aug. 24.—Charles W. Nordstrom, who was hanged in the garret of the King county courthouse at 9:30 this morning, committed the deed for which he was convicted nine years ago, Nov. 30, 1891. Nordstrom worked during the fall of that year for Thomas Mason, a rancher near Cedar Mountain in this county. He had a dispute about the amount of wages due him. The sum involved was \$3.85.

Lodge in St. Petersburg.

St. Petersburg, Aug. 24.—Senator Lodge of Massachusetts and his family have arrived here after a brief visit to Moscow and Warsaw. The senator declares he is merely sight-seeing and recuperating, anticipating heavy work this winter as chairman of the senate Philippine committee. Senator Lodge leaves here within a week and returns to America in October by way of Berlin. Representative Hill, of Connecticut, has just passed through St. Petersburg, having been thirty-eight days in reaching this city from Vladivostok.

Yankee Coal Is Preferred.

Rio Janeiro, Aug. 24.—The Royal Mail Steamship company's steamer Nile has bought a supply of American coal here in preference to the Cardiff coal sold by the company's own agents. This is the first instance of the kind in the history of the company.

Duke of York Sets Sail.

Cape Town, Aug. 23.—The Royal yacht Ophir, with the Duke and Duchess of Cornwall and York on board, sailed today for the island of Ascension.

Sends Men to Uribe.

New York, Aug. 24.—President Castro sent the gunboats Zumbador and Miranda and other Venezuelan war vessels from La Guayra and Coro with troops, under the command of Gen. Davila, to Rio Hacha, on the coast of Colombia, says the Wilhelstadt (Curacao) correspondent of the Herald. Eight hundred men are in the expedition. These troops will assist the Colombian revolutionists under Gen. Uribe-Uribe. President Castro has also sent a good supply of ammunition.

Ultimatum Reaches Sultan.

Constantinople, Aug. 24.—The French ambassador, M. Constans, today sent a letter to the sultan personally, informing him that he would leave Constantinople with the entire staff of the embassy if the matters in dispute were not settled immediately. The letter has the nature of an ultimatum. It accords the sultan the briefest delay within which to comply with the demands.

Leaps to Death from Window.

New York, Aug. 24.—John C. Topping, manager of the hardware firm of Topping Bros., of this city, committed suicide today by jumping from the third story of his home in Brooklyn. Insomnia due to nervous prostration was given as the cause. He was widely known in hardware circles.

**Dr. Arnold's Nuvo Family Tea**

No one who is cross and irritable is himself because it is not the nature of anybody to be so—it is because there are exciting causes. A weak stomach that cannot digest food—allowing it to decay—and a sluggish liver that will not remove bile from the system are the two principal causes that make a person cross and disagreeable.

Try a package of Dr. Arnold's Nuvo Family Tea and see how much brighter things seem and how much more vim and enthusiasm you can put into your work. Life will seem worth living.

**A Strong Woman**

Iowa City, Iowa, Aug. 15, 1900

My wife was sick for three years. We tried everything without relief and spent much money. My wife tried Wine of Cardui and four bottles cured her. She took two more bottles, knowing she would have to work hard during the hay harvest. She attended to all her household duties and loaded and unloaded all the hay. This medicine gave her strength. Formerly she was weak and tired and could hardly get about, but since she has been taking Wine of Cardui she feels better and stronger than when 20 years of age. **JOS. A. EISENHAFER.**

Mrs. Eisenhafer had tried everything during her three years sickness and had spent considerable money. She was weak and could hardly get about for three years before she took

**WINE OF CARDUI**

Now, after taking the Wine of Cardui, she can work with her husband in the hay field. That is hard work, but it is not as injurious to a woman's health as labor in stores, factories and offices where thousands of girls are closely confined year after year. With the aid of Wine of Cardui a woman can do any reasonable work and enjoy good health. The health that Wine of Cardui brings makes a woman vigorous in body and mind. Freed from those terrible devastating pains a woman grows well and strong naturally. Wine of Cardui regulates the disordered menstruation and cures leucorrhoea, falling of the womb and periodical pains in the head and back caused by standing or sitting a long time in the same position. Theodor's Black-Draught puts the bowels, stomach, liver, kidneys and blood in proper shape. Greatly increased strength and endurance is the natural result. Most cases are cured quickly. All druggists sell \$1.00 bottles of Wine of Cardui and 25 cent packages of Theodor's Black-Draught.

**The First Thing the Doctor Does**

No matter what your trouble is—is to get your bowels working properly, and prescribe some sort of laxative; and he is right. About every disease you can think of creeps into the system when it is clogged up—full of poison, caused by constipation. Keep disease out by keeping constipation out. "Laxakola Does It."

Laxakola, the great, tonic laxative, keeps the bowels open and regular, strengthens the mucous membranes of the stomach and acts directly upon the liver and kidneys, purifying them active and strong, the blood is purified, every organ and function of the body is strengthened; nervousness disappears and you feel invigorated and toned up.

For tired, worn out, faded women, whose systems are run down, blood thin, faces drawn and haggard, and that general "all gone" feeling, Laxakola is the ideal medicine. It gently moves the bowels and thus removes the cause, while its nourishing tonic properties clear the complexion, stimulate the liver, quicken the circulation, increase the flesh, brighten the eye and reinvigorate and tones up the entire system.

At druggists 25 and 50 cents, or send for free sample to THE LAXAKOLA CO., 132 Nassau St., N. Y., or 355 Dearborn St., Chicago, Ill.

Trade supplied by King's Pharmacy and People's Drug Store.

## THE PLAIN FACTS BRIEFLY STATED

Milwaukee Sentinel: The new editor of the new Manitowish Star, the latest addition to the group of organs that is being established by the Stephenson-La Follette syndicate, appears to be an honest man, even if his knowledge of the English language is as limited as his enthusiasm for the cause he represents is unbounded. He acknowledges without qualification that Governor La Follette did "declare war" upon the members of the legislature who had the audacity to oppose his wishes, and he justifies the act of the executive by insisting that the platform pledge of the party left him no option. In another editorial the same editor says: "It is the duty of republicans to consider carefully," which (of the contending factions) is right, or to verify their convictions if they have any. Then act."

If the editor of the Star has any convictions he is respectfully invited to "verify" them by the following facts:

No respectable body of men belonging to any party has ever contended that a party convention could usurp the functions of a legislature. Any platform adopted by a convention is merely advisory. That the plank relating to primary elections incorporated into the platform adopted by the republican convention last year did more than this was due solely to Governor La Follette, then a candidate for nomination. It was forced into the platform by him, the plea of "harmony" was used to smother any opposition that might have appeared, and the negative vote was never called for when the report of the committee was presented for approval. The whole proceeding was unrepresentative, arbitrary and without precedent.

After his inauguration Governor La Follette had his primary election bill prepared in secret. Members of the legislature who had a right to demand that they be consulted when important legislation was in preparation, were ignored. The bill, when prepared, represented one man, one will—it was not a republican measure.

Never in the history of Wisconsin or any other state has the principle been laid down that a legislature has no right to consider, debate or amend any measure presented to it for passage. The constitution says that "the legislative power shall be vested in a senate and assembly." Neither a party convention nor a governor is authorized by the organic law of the state to enact laws.

Having forced his pet measure upon the convention, prepared it in private without consulting leaders of the party, he "declared war" upon members of the legislature because they would not submit to his will and incorporate into the statute laws of the state a bill that was revolutionary in character, involving a principle that was untried and supplanting at one stroke the representative system of party government. The measure attacked the entire representative system, in fact.

These are plain facts briefly stated. Those who know the history of last winter's controversy at Madison know that had Governor La Follette not driven from him with threats of political death every member who came to him with a suggestion of compromise, a primary election bill could have been drawn that would have put the principle contended for to a test and proved its worth or worthlessness. He "declared war" instead of accepting counsel.

If you have a baby in the house you will wish to know the best way to check any unusual looseness of the bowels, or diarrhoea so common to small children. O. P. M. Holliday, of Deming, Ind., who has an eleven months' old child, says: "Through the months of June and July our baby was teething and took a running off of the bowels and sickness of the stomach. His bowels would move from five to eight times a day. I had a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the house and gave him four drops in a teaspoonful of water and he got better at once." Townsend's Watch Stolen.  
New York, Aug. 24.—George Alfred Townsend, the journalist, complained to the police last night that his watch, valued at \$300, had been stolen from his pocket while on a Broadway car. The watch, Mr. Townsend says, was given to him by Brigham Young in 1871.
